

Big Sound Marina – Dock ‘B’ Replacement

Client: Town of Parry Sound

Year: 2015 – 2016

SERVICES PROVIDED

CCTA was retained by the Town of Parry Sound to provide engineering consulting services for the removal and replacement of Dock ‘B’ at the Big Sound Marina. With the existing dock nearing the end of its service life, the replacement structure included the widening of all walking surfaces to improve accessibility and an expansion of the service capacity to accommodate larger, modern vessels.

CCTA prepared a design build tender for the removal and replacement of Dock ‘B’ in late 2015 with substantial completion of the \$400,000 project being achieved in June 2016. Upon completion, a total of 40 new dock slips were provided complete with shore power, lighting and water servicing.
