

**CLASS ENVIRONMENTAL ASSESSMENT
CHURCH STREET SEWAGE PUMPING STATION UPGRADES
IN THE TOWN OF HUNTSVILLE**

NOTICE OF STUDY COMMENCEMENT

The District Municipality of Muskoka is studying the problem of upgrading the Church Street sewage pumping station located at the intersection of Main Street East and Church Street in the Town of Huntsville. The study is being planned under Schedule B of the *Municipal Class Environmental Assessment*.

For further information on this project, or to review a copy of the *Municipal Class Environmental Assessment* document, please contact Rod Langford.

Comments and information are being collected at this time to assist the study team. The information will be maintained on file for use during the study and, unless otherwise requested, may be included in the study documentation, which is made available for public review.

We welcome any comments or information prior to January 16, 2012 so the project schedule can be maintained. Subject to comments received and the receipt of necessary approvals, the District Municipality of Muskoka intends to proceed with the planning, design, and construction of this project to be completed by late-2013.

This notice issued December 7, 2011.
