

Industrial Facility, Township of Springwater

Client: Atlas Block

Year: 2008

SERVICES PROVIDED

CCTA was retained by Atlas Block through a sole-source contract to act as project managers for the design and construction of a 50,000 square foot concrete block manufacturing plant in Springwater Township. CCTA provided technical support to the planning applications (site servicing, stormwater management, transportation), completed the site servicing design, assisted the owner in administering a design-build document for construction of the new facility, and provided inspection services throughout construction, estimated to be completed in late 2009.
