

## William Street Reconstruction

Client: Town of Parry Sound

Year: 2016

### SERVICES PROVIDED

CCTA was retained by the Town of Parry Sound to complete the final design, inspection and contract administration for reconstruction of 900m of William Street. William street is an urban collector that connects the commercial downtown core to Parry Sound Drive and Highway 400. The reconstruction was complex and included replacement of twin culverts that drain the back bay of Mill Bay to the Sequin River. Additional challenges included maintaining unrestricted access to an elementary school and the adjacent commercial and residential neighborhood. The reconstruction of sanitary sewer, water main, storm sewer, road, sidewalk and boulevards was substantially performed in 2016 at a value of \$2.95M.

Key Staff: Bill Van Ryn, Eric Watkin, Dave Thomson, Lucas Shelton, Greg McLachlan
